

Each day we will share one of the 12 most heartwarming animal rescues of 2011. Each happy ending is made possible through your generosity!

3. Hannah

We will probably never know why a gentle, older gal like Hannah was out wandering the streets alone. Perhaps she wandered from home that same day or perhaps she had been abandoned and was surviving on the streets on her own for quite awhile. We came to know her after she had a most unfortunate run-in with a car and was in need of veterinary care. Animal Services came to her rescue and brought her to the Nevada Humane Society Clinic.

After x-rays and surgery, Hannah was on the mend. It was then that the clinic staff noticed a tumor, and they removed that, too, to be sure she stayed healthy. Hannah made a great recovery.

Sadly, no one ever came to look for Hannah at the shelter and eventually she was put up for adoption. When it comes to pet adoptions, older pets are often overlooked in favor of younger pets, so finding a home can take some time. It's especially sad for senior animals, because they have known the love of a family for many years. But their life experiences make them the very best pets; seniors are usually calm, well mannered, and very grateful for love. That was certainly true of Hannah, but she also had a playful side as you can see in her photos.

One fine day, a few weeks later, a couple from Sparks came in to visit with the shelter dogs. They met Hannah, fell in love and took her home. It is great to know that this old gal now has a loving home.

Your generous support made it possible for us to be there for Hannah and other injured pets. Our clinic is very efficient and though we know how to stretch a penny to save lives, it still costs money to provide good, quality care and your generous support is what makes it possible.

I know that Hannah would thank you herself if she could, but since she cannot, please accept my sincerest thanks for giving her life, love, and happiness in her golden years!
